# VI PHA CO

More than protection

Vi Pha Co is the leading supplier of disposable gowns and drapes in Vietnam. We design and manufacture a large range of disposable medical devices to be used in the operating theater to achieve the best protection and comfort to surgeons, nurses and patients.

Certified ISO 13485:2003 with CE marking, we manufacture products matching the quality of our best competitors, at more affordable prices.

We carry a solid expertise of more than 10 years in the field of disposable surgical drapes and gowns and the Ethylene Oxide sterilization, with the aim of spreading the use of disposables in Asia. Now covering hospitals' needs in a large portion of Southeast Asia, Vi Pha Co is looking at expanding globally

Our range of drapes features:

- Breathable, absorbent and fluid repellent fabrics for a dry working area
- High quality infection control drapes with minimal surgical area
- Specialized drape to make draping simple and flexible to changes
- Device sterilized by EO
- Production certified ISO 13485:2003
- Surgical dressing with CE marking (93/42/EEC)
- Provide maximum protection for surgeon and patients
- Low linting fabrics
- Easy to use

Easy to use  
disposable drapes,  
gown, medical kits and  
procedure packs with the  
highest level of protection

Vi Pha Co drapes are easy-to-use, quick to install thanks to their smart folding and instruction labels in order to achieve safety and infection control. Our dedicated designs integrate feature such as tube holders, incise films, pouches, leggings, apertures and more.

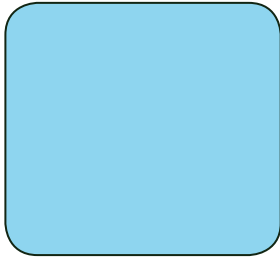

Our drapes are design to limit the surgery area around the incision to reduce the exposure risk. Made from sterilized AAMI level 3 fabrics with special reinforcement, absorbent material, Vi Pha Co drapes provide safety, efficient fluid control, breathability and overall drape stretching resistance.

# Key materials

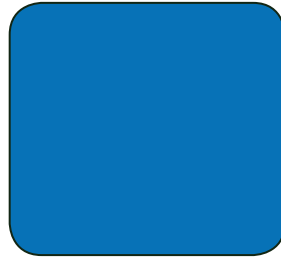

For efficient infection control our fabrics feature:

antimicrobial properties

# Gown

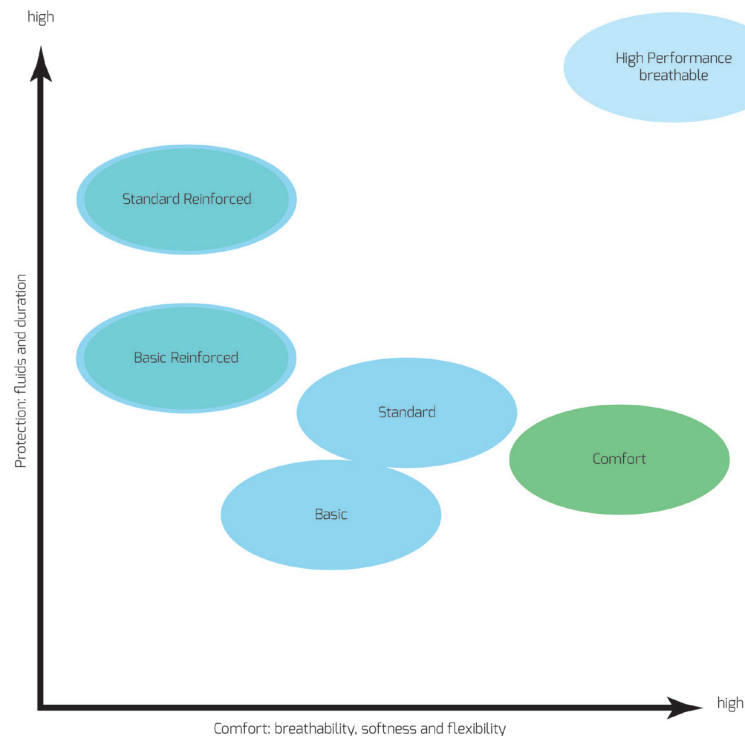

Vi Pha Co provides unique infection protection clothing for both patients and staff. When freedom of movement is crucial to a successful operation our gowns are specifically designed to offer the highest level of protection and comfort.

All our disposable clothes match the requirement from ISO 13485:2003 and CE marking 93/42/EEC for the manufacture of sterile disposable gowns for patients and medical staff to prevent the transmission of infective agents during surgical procedures.

Our gowns are efficient barrier against fluids including alcohol, microbial penetration while remaining breathable. Seeking high level of quality and safety, we provide gowns for all type of operation from minimal invasive clean to wet surgery with breathable reinforced front and impermeable sleeves and joints.

At Vi Pha co, we support the hospitals to make the most of their budget with a large range of clothing combining various protection level, comfort while offering competitive costs.

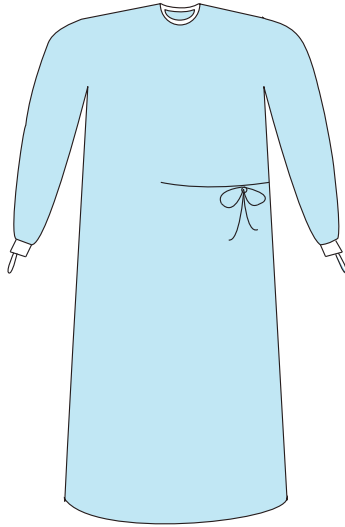

Selecting the appropriate gown for a surgery
